Regional Sales & Profit

Key Insight

North region leads in both sales and profit – managed by **Ryan**. South is the lowest performer.

Top Products by Revenue

Top 3

Laptop

\$735K – highest revenue

Tablet

\$734K – close second

Printer

\$690K – strong performer

Salesperson Performance

\$834K

Bob — Top Profit
2,632 units

2,644

Alice — Top Quantity
\$812K profit

\$731K

Frank
2,478 units

\$705K

Diana
2,508 units

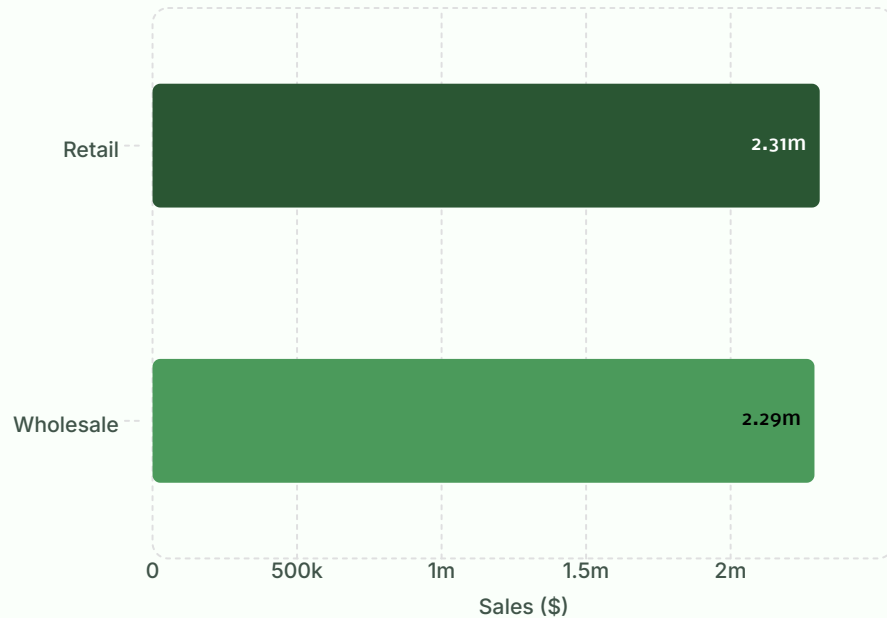

Key Insight: Alice sold the most units, but Bob generated more profit by selling fewer, higher-priced items.

Customer Types & Payment Methods

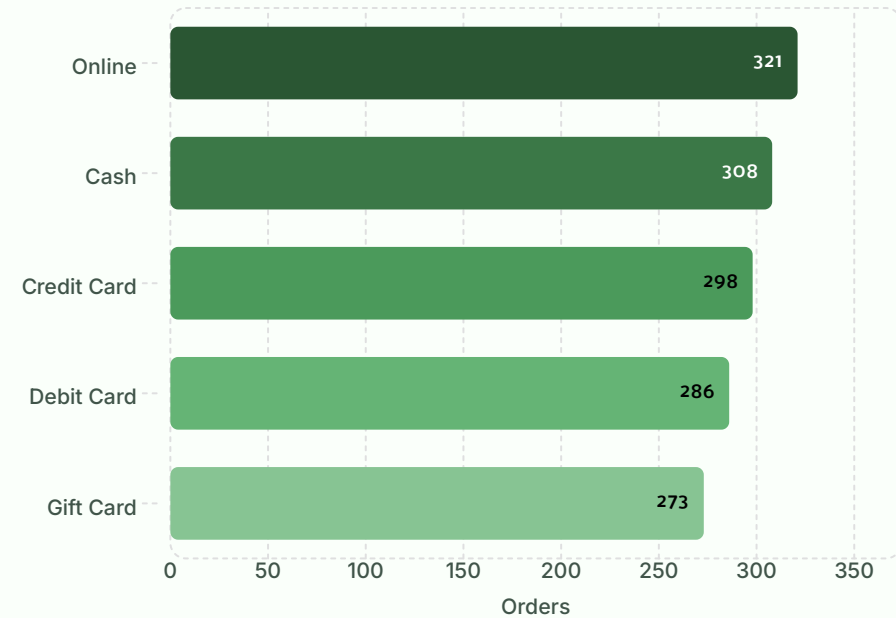

Customer Type

Type

Payment Methods

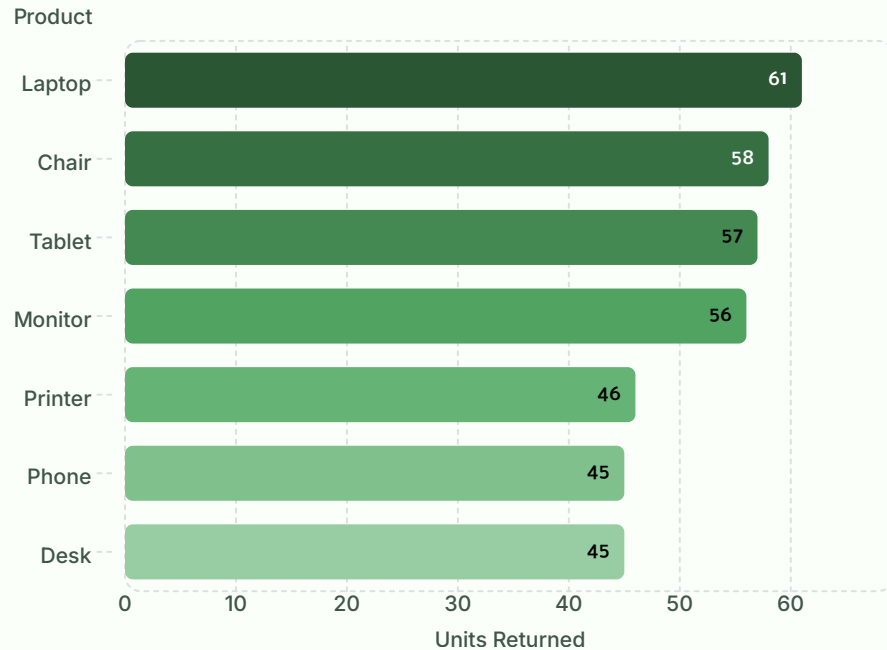

Method

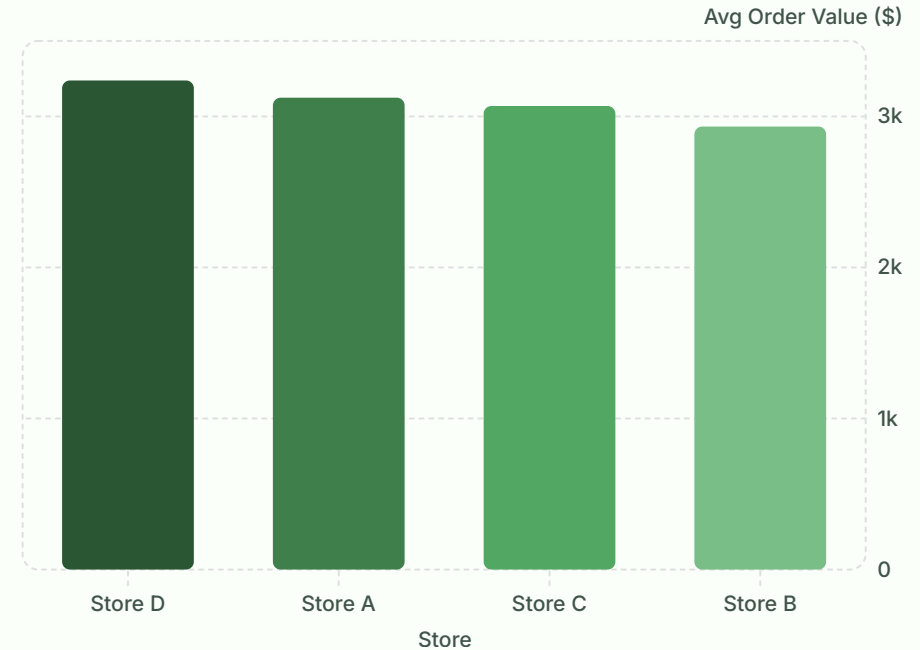

Retail slightly outpaces Wholesale. **Online** is the most popular payment method.

Product Returns & Store Performance

Units Returned by Product

Avg Order Value by Store

Laptop – top seller and #1 returned product (61 units). Store D leads in average order value.

Delivery Time & Regional Managers

Avg Delivery Days by Region

Regional Managers

Manager	Region	Sales
Ryan	North	\$1.02M
Eric	East	\$912K
Wendy	West	\$894K
Cameron	Central	\$894K
Sophie	South	\$874K

Central & South deliver fastest – a potential competitive advantage.

Key Findings

→ **North Dominates**

Highest sales & profit – Ryan's region

→ **Laptop Paradox**

Top revenue, highest returns

→ **Profit vs. Quantity**

Bob out-earns Alice despite fewer units

→ **Delivery Gap**

Central/South faster than North/East/West

Business Recommendations

1

Regional Strategy

Replicate North's success

2

Reduce Returns

Fix laptop return causes

3

Profit-Based Incentives

Reward margin, not volume

4

Payment & Store Ops

Invest in online; learn from Store D

5

Delivery Speed

Central/South model for slower regions
